Dr. John Kelly

Enhancing Recovery Through Science

The Recovery Research Institute (RRI) is a leading non-profit research institute of Massachusetts General Hospital, a teaching hospital of Harvard Medical School, dedicated to the advancement of addiction treatment and recovery.

Founded in 2012 by Dr. John Kelly, the RRI is a team of innovative scientists working through research, education, and outreach to enhance recovery through science, conducting and disseminating the most up-to-date research findings for individuals, families, healthcare professionals, and policymakers alike.

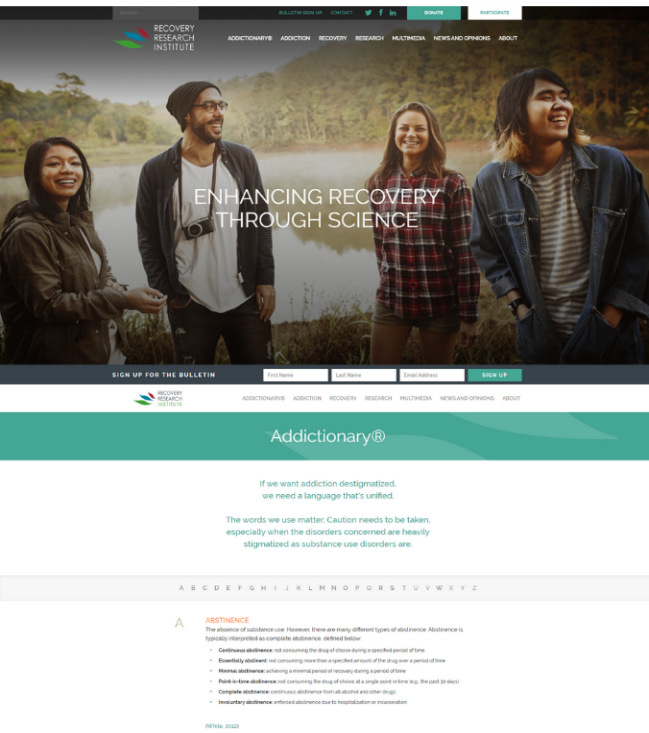

Enhancing Recovery Through Science

Recovery Research Institute Mission:

To enhance the public health impact of addiction recovery science through the summary, synthesis, and dissemination of scientific findings and the conduct of novel research.
