

# Advancing the Science on Recovery Community Centers: Seminar Series

## Seminar 6

**Title:**

Measuring Recovery in RCCs: Can the SURE Tool Help?

**Presenter:**

Dr. Joanne Neale of King's College London (Guest appearance by Ms. Hannah Carlon of University of New Mexico)

**Date:**

Friday, April 16, 12:00 EST

**Description:**

Professor Jo Neale from King's College, London will introduce the SURE tool and begin a discussion on whether SURE might be useful for measuring recovery in RCCs. This interactive session will explain how SURE was co-developed with people in recovery, describe how its use has spread globally, introduce a range of SURE resources (including the free SURE Recovery App), and provide everyone with an opportunity to complete SURE and offer comments and feedback.

Ms. Hannah Carlon, doctoral candidate at the University of New Mexico, will then briefly present on a measure of flourishing, which is an additional component to consider. We hope that participants in this session are ready to jump in with questions, ideas, and comments, as we hope to have an active discussion.
